FRONT-END ENGINEER

Results-driven Software Engineer with over 3 years of academic and professional foundations specializing in building responsive, high-performance web applications. Proven expertise in React, Next.js, and TypeScript, combined with an outstanding academic record in software engineering principles, core programming, and AI-assisted development. Adept at leveraging advanced AI tools to accelerate feature delivery and ensure clean, scalable code.

CORE PROFICIENCIES & SKILLS

Front-End Development: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS/Tailwind CSS, Redux, Context API, Webpack, Vite, GraphQL, REST APIs, Responsive Design, Cross-Browser Compatibility.

AI & Development Tools: Cursor, Claude, Codex, Git, GitHub, Chrome DevTools, Figma, Firebase, MongoDB.

Engineering Concepts: Object-Oriented Programming (OOP), Data Structures, Agile/Scrum, Web Performance Optimization, MVC, Design Patterns, TDD, CI/CD Awareness, User-Centered Design, Responsive Web Design, Accessibility (WCAG).

PROFESSIONAL EXPERIENCE

DIVCODES- Beriut, Lebanon

March 2023-Now

Front-End Engineer

- Developed and maintained 5+ responsive web applications using React, Next.js, TypeScript, and Tailwind CSS, improving user navigation speed by 80% through code splitting and lazy loading.
- Integrated advanced AI-assisted coding tools (Cursor, Claude, Codex) into the development workflow, accelerating feature delivery and sprint velocity by 30%.
- Collaborated closely with UX designers and back-end teams to translate complex Figma mockups into pixel-perfect, highly accessible, and user-centric interfaces.
- Spearheaded front-end development for multiple high-impact web applications, including Clinikal (a multi-tenant EHR platform), delivering fully responsive, bilingual (Arabic/English), and highly accessible user interfaces.

EdTech- United Arab Emirates

January 2021- February 2023

Front-End Engineer & Junior QA Specialist

- Built multi-platform e-commerce and CRM dashboards using React, GraphQL, Firebase, and WebSockets, increasing mobile traffic by 25% through optimized UI/UX design.

- Mentored junior developers on front-end best practices, code reusability, and introduced clean-code checklists into the repository pipeline.
- Optimized front-end performance, reducing bundle sizes and improving initial page load times across major web modules.

Latakia University- Latakia, Syria

February 2021-September 2024

Software Engineering Teaching Assistant (TA)

- Commanded and delivered practical lab sessions and course materials for undergraduate software engineering students, focusing on Advanced Programming (OOP via Java/C++) ,Web Architecture (JavaScript ES6+) and Information Security.
- Formulated and authored official examination questions, graded technical assignments, and structured comprehensive practical exam benchmarks.
- Provided continuous academic mentorship, addressing complex programming inquiries and guiding students through Software.

Projects

Clinikal (Enterprise Multi-Tenant EHR Platform)

- Developed core frontend views for a complex Electronic Health Records (EHR) system featuring clinical workspaces, dynamic scheduling, and eRx workflows.
- Implemented mirrored bi-directional layouts (Arabic/English support) and optimized clinical macro shortcuts using React and Next.js, ensuring full compliance with HIPAA and ADHICS frameworks.

Divpos & Divsuite (Advanced POS & Operations Dashboards)

- Built high-performance admin platforms and operations dashboards focused on real-time data visualization, inventory workflows, and complex business reporting.
- Utilized TypeScript, Tailwind CSS, and state management solutions to ensure high-visibility data presentation and seamless state synchronization across large-scale commerce applications.

Citizenmeds & Qahwah House (Feature-Rich E-Commerce Platforms)

- Developed modern, brand-led e-commerce storefronts designed for seamless product discovery, intuitive navigation, and high-conversion shopping experiences.
- Integrated dynamic cart systems, advanced product filtering, and polished animations, resulting in optimal responsive performance across mobile and desktop devices.

Cogent Softech & Ismail Furniture (Credible Commercial Websites)

- Crafted responsive and clean corporate web applications to showcase professional service categories, product catalogs, and enhance brand digital presence.

EDUCATION

Latakia University – Syria

January 2020

Bachelor of Software Engineer

- Cumulative Graduation Grade: Distinction (83.78% – Ranked 5th overall in the graduating class)
- Academic Excellence: Ranked 1st in the 3rd Academic Year with an annual GPA of 92% and received the Academic Excellence Shield.
